

Notice regarding the FY2024 adjustment benefit for those who are expected to be unable to receive the fixed amount tax reduction

1 What is an "Adjustment Benefit?"

- As part of the support for high prices under the comprehensive economic measures to end deflation completely, a "fixed amount tax reduction" of 40,000 yen (30,000 yen from the income tax amount for 2024 and 10,000 yen from the amount of municipal and prefectural taxes on income for FY2024) will be provided for each taxpayer and spouse eligible for deduction (Note 1) or dependent (Note 2).
 - In this case, an **"adjustment benefit"** calculated by rounding up the amount that is not expected to be fully deducted from the fixed amount tax reduction to the nearest 10,000 yen will be paid to **those who are expected to be unable to receive the fixed amount tax reduction.**
